

Regarding Indiana's Telephone Privacy law and the current petition from the Consumer Bankers Association (CBA). I would like to present my opposition to the petition listed above and the attempt to "weaken" Indiana's Telephone privacy law. Because of Indiana's Telephone privacy law, I have been able to enjoy several years of peace in my own home. I DO NOT want to return to the days when the telephone rings constantly during the time I have available to be home with my family. Please DO NOT change the Privacy Law. These organizations are not interested in my personal interests, they are out to make more money. They do not need this change.

Thank you.
